Shall we submit longor to the incolence of the Spanlard!

Is a question now belig asked by almost every between us and Spain. It is well known, to all or foe. should be stopped, and that war should either be-comprise har finally. daolared against her, or that she should be placed beyond the pule of international good will.

A few days age, In Congress, the Hon. M. Phillips offered a mution, that a list of these outreges, as far as could be ascertained, be furnished to Congress, so that mambers could act upon their with all the facts before their eyes. The result of that motion, and the long list of Spain's elos ugainst us, would astonish the must credulous. Some of the facts that were thus elleited are briefly these, and have been summed up by the New York Herahl: 'Two years ago, and even later, our mails were regularly ransacked, and the principle was formally laid down and actual-Iy carried out by the Cuban authorities, that no resident of the Island should cend news to the United States or receive news from hence, save only that work of news which the Captain General was pleased to sanction. All this we have borne. Sometims ago, two American vessels, (tertainment, the Misses Avondale, of Boston, the Susan Loud and the G-orginua, were seized by the Cuhan outhorlifes while lying off the Island of Carman, in Yucatan, on auspecion that they had been concerned in Lopez's first luva sion, and the captains on l crew, Americans, werinhumanly treated by the Cubana. On the 16th August, 1851, the United States mail stramer Falcon was fired Into by a Spanish war s eamand forced to bring to: no amends were ever meds. On the 28th April following, three American sallots were taken from the American brig Lucy Watts, lying at Sagna la Grande, Cuba, and thrown into the du igeous of the Moro Castle, on the preteuce that they had been sugaged in the slave trade, and this while the Captiin General. his chief officers, end many of the principal citiseas of the Island, were openly derlying a revenue from that traffic. In October of the same year, the Cuban authorities refused to allow the Crescent City to enter the port of Ilavana, be cause the pursar, William South, was suspected of having conveyed news from the Island to this country; and an interruption of our postal and commercial Intercourse took place, which inflicted severe injury as well upon the steamers as upon the mercantile community. Some time afterwarde (we cannot state the day with precision) several seamen belonging to the American bark Jasper were esized on the old gles that they had been concerned in the slave trade-the Captain General still fittening thereon-and imprisoned like those of the Lucy Watts. The Black Warrior's naval career had hardly commenced before she was fired upon by a Spanish war steamer, and forced to bring to, in order to attisfy the oaprice and spite of the Cubao authorities."

It is a matter of wonderment with us how we have brooked such unparalelled insolence and effrontery so long. There is scarcely a war whose ty for the conduct of the authorities. In giving, Island of Malta. ry, whose beginning has had half the reasons that these offer for a just and defensable appeal to arms. I live in de Texas, which is not an aged Spanshing with language, an aged Spanshing is allowed by the exorbitant exercise of these powers, and in the pattern in thing is on with the recent escape of slaves from this good on with the recent escape of slaves from the exorbitant exercise of the exorbitant exercise of these powers, and in the exorbitant exercise of the exorbitant exercise of these powers, and in the exorbitant exercise of these powers, and in the exorbitant exercise of these powers, and in the exorbitant exercise of these power bloody deeds are described in the annals of hist insignificance-and, we repeat it, it is strange, very atrange, that we have borne with such things so long. There is hut one way to account for it. and that is upon the principle-a principle of which, pernaps, we have too large a share-inf generoslay. As these outrages have accurred. we have felt for their nuthors the feeling that the noble-minded and the strong usually feel for the weak -a feeting of pity raingled with our just anger, and sufficient to restrain our strong I shall not he state to use the authority and not he is too-has been to Kennicky, and has been from inflicting a mortal blow. We have means which Congress may grant to ensure the had a cordial teception from Gay. Powell We known that the characteristics of the Spanland are arregance, vain-glary, pomposity, and a presumption that asks too much of good nature, and which learnest y hope may not saire, I suggest therefore we have rather laughed than frowned to Congress the projectly of adopting such project her continued annovances. But there is a visional measures as the exigency of the case at her continued annoyances. But there is a point where the "middest-mannered" man will cease to smile, and beyond which forbearance is no longer a virtue; and, as experience has prove on our kindness to Spain has been ill-expended. we doubt not it is time to with lriw It, ann teach her that Ingratitude pays badly in the long run, and that there is such a thing, sometimes, as forcing respect where it is due. W SHINGTON, Mar 18.

The Union this morning announces that a special messenger, with instructions to our Minister et Madrid, will leave in the steamer Arctic foday, demanding ample and immediate restoration for the outrage on the steamer Black Warriur at

OUR RELATIONS WITH CUBA .- The following which purports to be impurtant, we capy from the last number of the Naw York Times:

We learn from good authority that orders from Washington, transmitted by telegraph, have been received at the Brooklyn may yard directing the steamer Princeton to be got ready for sea, ami to he prepared to leave at a moment She was hanled out yesterday, and now lies off the battery. We have reason to believe that the government intends to sends her to Havana, fur the purpose of demanding at the hand of the Cuban authorities prompt restoration of the Black Warrier and her cargo. Wu are iuformed that the manufest of the Empire City, which sailed yesterday for New Orleans, intendlug to touch at Havana, was made out precisely like that of the Black Warrior, and that the port officials at Havana, will have another opportun ty in her case of runmarily setting aside the practices and usages that have hitherto obtained annoyances to American interests which for years post have characterizal our relations with Action upon this subject cannot be morprompt or vigorous than regard for the rights of our cutz us requires, or than public sentiment will fully sanction. The present Span shantherities in Cuby are evilently under the lunters for that Concha's disgrace at Madrid is due to his reputed friendship for the United States, the they are determined to evoid his fate by stunning his example. With them everything American is to be suspected. All our commercial relations are to be hampered and embarrassed by their jealous and vaxatious hostility. Deeming themselves safe from punishment in the assumed necessity of sojusting all differences at Mudrid, and in the long delay that must attend negotiations upon the subject, they give full play to their animosity, and neglect no opportunity of injuring the commerce and marking the citizens of the United

IN THE WRONG PEW AGAIN .- We believe the P ducah Democrat is the only democratic paper in the State that does not sustain the Brok ve of of Gov. Powell. The Hines, at Louisville, may ayapathuse with the Democrat, but it has not, as we have seen, made war upon the message. We think the editor of the Democrat slid not proper ly canvass the subject before taking the icrong side. He is generally right on important ques tions of public policy, and whether right or wrong, when he takes a stand he lahors a saiduously and with much carnestness. This makes it more important that he should always clock before he lea, s'' He surely cannot see good reasons why more bank capital should be incorporated in Kentucky. Antif not, then he must one that the executive did just what he should have done in vetoing the bills of the late session The fact, as stated by the editor, that the people have learned more fully the art of banking, may apply to those who centrol banks; but the masses he cannlry-the industrial portion of the peo pic-are now, and forever will remain, ignorant of the art-except that hy that art they are ever and mon swindled and sluped by banks. It w. understand anything of the past history of banks, and banking, it les presentes want conduct, in all respects adv. a to n ore ity comman hanesty. From the first bank (established in Holland we herieve, cown in the latest hank whose character has had time to develope fully, the word : would would have been an appropriate vignette for their issues.

It is certainly a far-fetched argument of the Democrat, to say that the message savors of a monopulizing spirit—that innsmuch as the Sinte is a stockholder in the pr sent banks in Gaver nor desires to keep down other banks in view of a larger nividend to the State. No such necuclion can rationally be crawn from the language of the Executive .- Henderson Rep.

Mysterious and Horrialk Muanik .- Our usually quiet city was thrown into great excitement, on Thursday moreing, hvor p rithat the hody of a murdered man had been found in a stark and lonesome hollow, about three miles south of Newport, and back of Mr. Dighy's residence The report was too true. We are indebt if to Shariff Sticker, who held the inquest, as the Coroner is ill, for the particulars below, and for a copy of the vertice of the jury,
It appears that a man named Mott, was engag-

d in burning brush near where the body was found, an Wednesday evening last, and happen ed to see, in passing in passing u log agains which a pile of brush was burning, the barrel of a fine silver mounted shot gun lying on the ground, the fire having consumed nearly all the stock. Mott was much astonished to find a gun in such a place, and his curiosity was excited He proceeded to a spring near by, to get a crink, and on returning happened to cast his eyes to a dark gully in the hollow near where he found the gun, and there saw a boot sticking out of a heap of brush and earth. On examination the hady of a man was niscovered, with his body horribly eaten and multi ted by hogs, and his skull broken in several places by clubs on rocks. From appearances the awful deed had been committed several months since, the loneli ness of the spot preventing discovery before supposition are forms clue has, as yet, been had to the name, or his murderer-that he was hunting, with others, and quarreled and been killed or that he had been met there by those who kill and robbed him. The latter aupmosition is strongth ened by the fact that Mr. Digby h ard one night in December last, in that direction from his house occurring very late at night. He was curprised and went out of his house to a ridge near hut saw nothing. Next say the tracks of two men were observed in the snow passing in a oi rection from the hollow to the turnpake .- They were, most likely the murderess .- Nowport Mes

The Post Office Department has made a contract with steamers David White and Alvin Adams to carry an easiern may between Louisville and Cincinnati. DIL JOHN BULL. SOMETHING

NEW AND VALUABLE.

The most powerful King on the face of the globe new The most powerful range and Republic. The power velker supreme in the American Republic. The power of the crowned heads of Europe sink into Insignificance when compared to that of our American King.

When compared to the four American King. European Kinga employ the power vested in them to increase the richea of the rich and lordly, and to reduce to greater misers and degradation, the poor and dependent. Our American Kinggoes forth with equal willingness to the lordly mansion and humble callin, ready alike to administer relief and to offer health and happiness to the lofty and lowly, the rich and tha poer. DR. JOHN BULL'S

GREAT AMERICAN KING lathe Taxin Wonder or for Werld, and the greatest blessing ever offered to affilited humanity; to the suffering millions, the foctor can say, relief is at your command. You have only to use this maghal remedy. All those who still suffer and will not accept the profer-Balm, deserves not the pity of their families.

This wonderful medicine carried the brief portod since its introduction, has carried happiness to the hearts of thousands, and made life a charm to many who keretofora regarded it only see a painful and miserable existence.

To the winds with all Liniments, Embrocations, Pain To the winds with all Liniments, Embrecations, Pain Killers and Pain Extractors, and ist millions of glad tongues proclaim the merits of the great "Americas King of Pain," a preparation compresed solely of vagetables and roots, produced by America's own rich and bounteous soil.

We would ask the Ladies, who are always competent

We would ask the Ladirs, who are always competent judges of what is and what is not a valuable family medicine, to do us a special faver by giving the King of Pain a single trial and if satisfactory, exert their influence in its behalf, recommend it, speak well and often of it, and see that it a used by their still stall neighbors. The Ladies are always charitable and when they induce their suffering friends to use this really valuable medicine, they will be doing an act of benevolence that they can wall be proud of. This is a powerful and truly magical remedy for all states.

wall be proud of. This is a powerful and truly magical remedy for all externances, and the many internet and it ions it is a certain curayet it is perfectly harmless and incapable of producing the loss injurious effects in the most dolicate cases or that weakest constitution.

It is entirely useless to follow that old and worn-out aystem of publishing to the public thousands of cartificates of wonders performed by this medicine. It costs but twenty-five cents to try it, and Dr. Bull stakes his wall-carned reputation on the king of Pain doing all and more than he claims for it.

We would ask have you tha Rhaumatism or Gout; these are not pleasant companions, and we know that you would like to drive them away as soon as possible, than use

"BULL'S KING OF PAIN." Would you be cured almost immediately of Bowd Complaint, Dysentery, Summer Complaint, Cholera Mos-bus Cramp Choli, Head Ache, Tooth or any other ache or pain, the remady is simple and the cure certain,

AYER'S PILLS,

NEW and singularly successful reinedy for the A cure of all Billious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheomatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side. Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgativo Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but elfectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates scrious and No person can feel well while a costive habit of body prevails; besides it soon generates scrious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the publichealth, and this Pill hus been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures sors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the eminent gentlemen to whom we are allowed to refer for these facts, are PROP. VALENTINE MOTT, the distinguished Surgeon of New York City.

These Pills, the result of languages.

These Pills, the result of long investigation and atudy, are offered to the public as the lost and most complete which the present state of inedeed most complete which the present state of ined.co science can afford. They are compounded in to the drugs themselves, but of the medicinal variate only of Vegetable remedies, extracted by chemical process in a state of parity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been foun in the Cherry Pectoral and Pills both, to produce more efficient remedy than had hitherto been obtained ways process. The review is perfectly of tained by any process. The reason is perfectly of vious. While by the old mode of composition, every medicine is burdened with more or less of acr monions and injurous qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the ematter virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidute to disease than any other medicine known to the world.

redicine known to the world. As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a country in the state of a remedy without knowing its composition, I have upplied the accurate Formulæ by which both my Pectural and Pills are made to the whole body or Practitioners in the United States and British Amercan Provinces. If however there should be any ne who has not received them, they will be comptly forwarded by mail to his address.

AYER'S

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it eccomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is scrimouious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, them. These pills produce no irritation or psin, unicss it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Hesdache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with sorenees of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some eingularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Hesrt, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy ection, and restores the appetite and iron. AYER'S CHERRY PECTORAL,

For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This remedy has won for itself such notoriety from its curea of every variety of pulmonary disease, that it is entirely nnnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the eases of its cures, that almost every section of the country abounda in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties tacks upon the lungs, but for the milder varieties of Colds, Covous, Hoarsexess, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained.

That Noble and Unsurpassed Foal-Getter, Billy Waggoner, Er.,

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by-CANNON & GAINES, Frankfort, Ky.

They have also produced some eingularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Hesrt, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy ection, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, es every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will enswer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.
